

Vigilance India, Prosperous India

“Together we fight together we fall, and together we shall shine bright”.

India is a beautiful country, known for its different culture and traditions. It is also famous for its historical heritage and monuments. It represents “Unity in Diversity” across the world.

Before the Independence, India was under the British rule. It got its independence from the Britishers in the year 1947, because of the struggle and dedication of our great freedom fighters. When our country got independence, Pandit Jawaharlal Nehru became the first Prime Minister of India. He hoisted the Indian flag and said

“When the world sleeps, India will awake for life and freedom”

By the time of Independence, India was left wounded. In the ancient time India was called “The Golden Bird” because of its wealth, Prosperous and had established a Socio-Economic System. When India was under the British rule, the purpose of every man’s life was to liberate India from slavery.

Today our country is imprisoned in the beds of evil practices like corruption, black money etc.

Today, the situation in our country is worse due to corruption. Some people are betraying their own country for money and making our country hollow like a Termite. There is a saying

“Power does not corrupt People, People corrupt Power”. Today Poverty, Hunger, Unemployment, Raising Inflation are the side effects of corruption. The sad thing is that the beds of Corruption and black money which had to be weakened are becoming stronger.

Today if India has to become a corruption free country, the important thing for this is Vigilance and Awareness. We celebrate the last week of October every year as the “Vigilance Awareness Week” the birthday of Sardar Vallabhbhai Patel whose purpose is to spread awareness regarding the effects of corruption. Vigilance is also meant to ensure

efficiency and administrative action of the person in general as lack of vigilance leads to loss and economic collapse. Dr APJ Abdul kalam has said **“Dream is not the thing you seen in sleep but it’s the thing ,that doesn’t let you sleep”** Therefore, it is important that every citizen should be vigilant to corruption. We should not forget that taking bribe is not only a crime, but giving bribe also comes under the category of crime.so, I conclude by saying that

“Let us all be Vigilant to have a better future”
